## we believe...

- There is a direct connection between the behavior and academic success of the child at school and the strength of the family. The family has a very powerful influence.
- Strong families are a key to the success of children at school.
- School cannot bring about change alone.
- The family is the most significant influence in the development of a child. Strong families mean successful students.

## OUR MISSION

to promote student success by strengthening families  
through parent-school-community partnership.
