**SUBJECT: 100K CAPITAL OUTLAY PROJECT:**  
**PLUMBING WORK – CONTRACT C100:**  
Bus Garage @ Military Road PCN: 14-26-01-03-5-034-005

Dear John:

We have reviewed the bids received on Wednesday, May 25, 2016 at 2:00 p.m. for the Plumbing Work – Contract C100 for the 100K Capital Outlay Project at the Bus Garage. We were pleased to see that the bids came in under the estimates and will allow this project to move forward.

We have discussed the bid with the low bidder and confirmed that they are satisfied with their bid and are able to proceed upon award by the Board of Education. We hereby recommend awarding the following contract to the lowest responsible bidder as follows:

**Plumbing Work - Contract C100**  
The Pump Doctor, Inc.

Base Bid: \$78,492.00

**Total Contract Amount: \$78,492.00**

Enclosed for your reference is a copy of the bid tabulation sheet from the bid opening as well a copy of the Plumbing Contractor review letter from M/E Engineering, P.C. confirming their recommendation to award the plumbing trade bid.

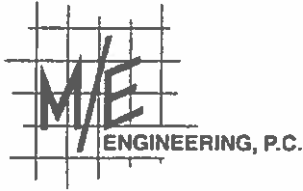

Please advise when we should proceed with notification to the contractor and begin the preparation of the contract.

Very truly yours,

**GORDON W. JONES ASSOCIATES**

**KENTON BUS GARAGE  
FUELING SYSTEM**  
M/E Reference 151250.00

**GORDON W. JONES ASSOCIATES**  
5757 Main Street  
Williamsville, New York 14221

Attention: Mr. Scott W. Jones, AIA

Dear Mr. Jones:

We have reviewed the bids received on May 25, 2016, for this project and offer the following recommendations:

The Pump Doctor Inc. is the low bidder with a base bid of \$78,492.00. The Pump Doctor Inc. was the lone bidder for this project. The base bid amount falls below our projected cost for the scope of work included in the design package.

We have discussed this bid with Mr. Ben Appleton owner of The Pump Doctor Inc. Mr. Appleton indicated to us that they have reviewed and are comfortable with their bid. Mr. Appleton also indicated that they offer no substitutions and intend to provide all materials per the plans and specifications.

We have worked successfully with The Pump Doctor, Inc. on numerous previous projects. It should be noted that The Pump Doctor Inc. was the contractor that originally installed the fuel system that is currently operational today so the company has familiarity with the site.

M/E Engineering recommends the award of this contract to The Pump Doctor Inc.

Sincerely,

*M/E ENGINEERING, P.C.*
