

Turn Markers  Into Energy!

Dear Parents,

We're excited to tell you about a very special program we are coordinating at our school in conjunction with Crayola. It's called Crayola ColorCycle – an amazing new program devised to turn used markers into energy!

Holmes Elementary students and teachers will be collecting used markers that are ready to be discarded. The markers will be sent to a facility where they will be converted into clean fuel. This fuel can be used to power vehicles, heat homes, cook meals and more!

Please help support our efforts by sending your kids in with any used markers, dry erase markers and highlighters you may have around the house – even non-Crayola brands. The drop-off box will be located in the hallway outside the main office for your child to deposit the markers.

Thank you in advance for participating! With the help of parents like you across the country, the Crayola ColorCycle program can keep tons of plastic out of landfills each year. Remember, don't throw out that used marker—*ColorCycle it!* Learn more at <http://www.crayola.com/colorcycle> ☺
