## Farm to Table

### Big Picture Students Visit Local Apple Farm

301 students recently visited Blackman Homestead Farm to pick their own apples. The students took advantage of this Leaving to Learn opportunity to better understand the farming industry. The students also worked together to pick a variety of apples to be used back at school.

301 Advisor Stacey Pritchard brought the advisory together to make apple sauce using the apples the students picked. Each student in the advisory helped make the apple sauce. The lessons learned in this Farm to Table experience brought the group closer together!

The learning did not stop with apple sauce making, either. The advisory is now looking to incorporate a greenhouse at Big Picture to continue finding ways to grow our own food and learn how to incorporate the fruits and vegetables grown into meals that can be shared at school.

We are excited to see where this Leaving to Learn experience can take the 301 students. Big Picture is about students finding and exploring their passions and this is yet another example of this coming to fruition!

### Students Attend Leadership Conference

Several students were able to attend the Character Council of WNY Leadership Conference this week. Krisjun Raymon, 401 student, Gabriella Cavalleri, 301 student, Anthony Genco, 201 student, and Ashley Stump, 101 student, attended the conference on Thursday with 101 Advisor Karen Monaco. 001 Advisor Dan Litz took Alexis Stoudmire, Anthony Torres, Seth Woskowitz and Collin Froebel from his advisory on Friday.

The students listened to guest speakers and engaged in positive character activities as part of the conference. Congratulations to our student leader for being selected to attend!
