

Ken-Ton Big Picture TGIF

One student at a time.

Big Picture Closet

The students have worked with Michelle Phillips, Teacher Aide, to establish the Big Picture Closet. The closet is for our own students and their families.

We have had many donations of clothes, toiletries, etc. Students that are in need of clothes or any other items in our closet are welcome to whatever we have.

Pictured below you will see some of our students organizing the donations we have received so far! The students take great pride in knowing they are taking care of their Big Picture community. It is impressive to see what they have done!

Halloween Fun

Big Picture Celebrates Halloween in Fun Ways

Halloween can be a great time to have some fun and work together at the same time. This week was highlighted by some great examples of this from both students and advisors!

The 101 students took time Monday to make some Halloween treats together. The group made popcorn balls to share (see pictures on Page 2). The project was more than just making popcorn balls, however. It included using skills like following directions, working together, following a recipe and creating something that benefits the Big Picture community. Life lessons that will be useful forever!

Our faculty also got in on the fun when Karen Monaco and Stacey Pritchard dressed up as Matt Chimera and Jim Keleher! The faculty at Big Picture work hard everyday and always have each other's back. We also laugh and play together which makes the work so much more enjoyable! It takes special people to work at Big Picture and we are very lucky to have the staff we do!!
