Mon-Fri 8-4PM

POTENTIAL CAMP SESSIONS

CODING/ROBOTICS   **BREAKOUT EDU**

ENGINEERING CHALLENGE   **E-TEXTILES**

ABOUT THE CAMP
STEAM is an educational discipline that aims to spark an interest and lifelong love of the arts and sciences in children from an early age. STEAM-based education teaches children more than science and mathematics concepts. The focus on hands-on learning with real-world applications helps develop a variety of skill sets, including creativity and 21st-century skills. Preparing today's children to become the innovators and inventors of tomorrow begins with STEAM education programs. This Summer camp, will provide opportunities to take traditional learning and pivot it to prioritize the hands-on experience and real-world application necessary for developing an innovative mind.

Registration Opens April 17th, 2023

SAMPLE AGENDA

Time	Activity
8:00 AM	Registration & Activity Exploration
8:30 AM	Opening Activity
8:45 AM	Session #1 Group 1 - E-Textiles Group 2 - Engineering Challenge
9:50 AM	Session #2 Group 1 - Engineering Challenge Group 2 - E-Textiles
