### TIPS

- Create a new Photo Gallery in the site, subsite, or section where you plan to insert the Photo Gallery.
- \* Once you set the **Photo Gallery** width, you cannot change it. The only way to change a gallery width once you save it is to delete the gallery and recreate it.
- Be sure to click the "Publish Gallery" button after you make changes to your gallery so that the changes are seen.
- If you have access to it, you may also insert the tag for the Photo Gallery into a page anywhere on the site.

# How to add Photos to the Photo Gallery:

New Photo Gallery

- 1. In the same screen where you created the new **Photo Gallery**, select the *Photos* button to the right of the gallery to which you wish to add photos.
- 2. Choose to either upload individual photos (up to five at a time) by selecting the *Upload Photos* button or upload several photos at once by choosing the *Batch Upload Photos* button.

#### NOTES:

- If photos need to be altered (brightness, contrast, sharpness, color) in any way, click on the *Adjust* button next to the photo.
- To rename the photo or add a description, click the *Edit* button next to the photo.
- 3. You may sort the images if you would like to put them in a certain order, by clicking on the *Sort* button (then click and drag on the photo).
- 4. Lastly, be sure to publish the Photo Gallery by clicking on the *Publish Gallery* button.
  - You MUST click *Publish Gallery* every time you make changes to the gallery, otherwise the changes will not be
